Cash and Cash Equivalents

The Company considers all highly liquid investments purchased with an original maturity date of three months or less to be cash equivalents.

Inventory

The Company values inventory at the lower of cost or market.

Fixed Assets

Furniture, fixtures and computer equipment is recorded at cost. Depreciation is computed by the straight line and accelerated methods over the estimated lives of the assets ranging from three to seven years. Expenditures for maintenance and repairs are charged to operations as incurred.

Income Taxes

The Company accounts for income taxes using the provisions of Statement of Financial Accounting Standards (“SFAS”) No.109, Accounting for Income Taxes. Under this standard, deferred tax assets and liabilities represent the estimated tax effects of future deductible or taxable amounts attributed to differences between the financial statements carrying amounts and the tax bases of existing assets and liabilities. The standard also allows recognition of income tax benefits for loss carryforwards, credit carryforwards and certain temporary differences for which tax benefits have not previously been recorded. Valuation allowances are provided for uncertainties associated with deferred tax assets.
